NUMBER 243

THE CITY COUNCIL

TO MEET IN REGULAR SESSION MONDAY

Moving of Poles and Trees And Insurance Patronage Will Receive Attention.

The City Council meets in regular session Monday afternoon at five o'clock.

Several matters of interest will likely come up. The proposition to move the poles and trees from the streets to the sidewalks will have a little attention. There is quite a fight on over the city's insurance patronage and lively times are looked for.

It is not expected that anything will be done in regard to the power question. Every member of the council is on record as being opposed to accepting any proposition that has yet been made.

SALVATION ARMY

LECTURER TO BE IN DOTHAN TOMORROW

Noted Lecture Will Be Given At Court House at Four O Clock P. M.

Lt. W. L. Conner of the Salvation Army will be in this city on Sunday August 1st and deliver his noted lecture "Concrete Christianity" at the County Court House at 4 o'clock p. m. The services will be under the auspices of Rev. G. F. Bell Pastor of the First Presbyterian Church.

It is desired that all who will be present to the people of this city in the city in question should be heard by every one. In a fervid and earnest manner the speaker will take his hearers along the road of the Salvation Army from the date of its birth nearly half a century ago up to the present time and review in a most inspiring manner the different ramifications of that organization who are

Feeding the hungry, Clothing the naked, Comforting the broken hearted, Housing the homeless, Cheering the desolate man of soiled halls of its pitiable victims and waging an uncompromising fight for the virtue and chastity of our women.

Punctuating the dark gloom of dungeon walls with the glorious light of the Gospel and carrying the Message of Life to the non-church going.

This lecture is being received with great favor and enthusiasm throughout the land and a person should hear it.

The public is cordially invited and no admission fee will be charged.

Served on the lawn. Afterwards the club dispersed to meet with Miss Charlie Crawford.

The members are Mary P. Hunter, Jane Knappe, Maude Crow, and Willie P. Carter. Also present were a large number of friends. The ladies were very kind and the Refreshment table was very good. The Refreshment table was very good.

OPEN AIR CONCERT

WAS SOMETHING EXTRA GOOD.

The Appreciation of the Audience Being Manifested By Warm Applause

The open air concert on Mrs. A. J. Malone's lawn last night was something extra in the music line. The appreciation of the audience was shown in a marked way by the close attention and warm applause given every number.

With each and every one who took part delighted their hearers the cornet and trombone duet by Messrs. Parker and Mathis solo by Mr. Rappert duet by Messrs. Hill and Rappert solo by Miss Ghent and the mixed quartet. Mrs. Hill and Hill came in for an

Some men in Mississippi passed by a man's watermelon patch at a late hour of the night, and had an extreme desire to taste of some of the cool melons. They climbed over the fence, and the owner of the patch fired into them like he had been looking for them a long time. He only killed one man and winged several others.

Five years ago, in Mississippi, a man paid \$5,000 from the express company, with the express purpose of keeping it, but he let his wife in on the trick, it seemed, and she talked him out of the notion, and sent for a doctor friend of the family and asked him to return the money to the express company, and ask them not to tell any names, or give any information as to who turned over the package to him. The doctor did this, and the court tried to make him tell, but he wouldn't. He was sent to jail and has been doing time inside and out, for several years, and the other day he was sent back again, but this time the woman relieved him of his promise and the mystery was soon cleared up. It was not the man the company has suspected. The doctor will be more particular next time about promising not to tell of the source of such packages.

COST OF RUNNING CITY'S POWER PLANT.
Figures are taken from the City's books and show actual cost for six months, Oct. 1st, 1908 to Mar. 31st, 1909, inclusive.

Amount of Energy Developed, 200 H. P.	
Fuel, cost, freight, switching and handling charges.....	\$6589 60
Salaries, labor, etc.....	2521 19
Supplies, oil, waste, etc.....	179 85
Repairs.....	285 15
Improvements.....	235 35
Total expense for six months.....	9811 14
Or for twelve months.....	\$19622 28

The above figures do not include cost of meters, office supplies or any office expenses. These charges will be about the same under any conditions.

ESTIMATED EXPENSES WITH CHEAP POWER

Electric current, 200 H. P. 12 months.....	\$10368 00
Salaries, labor four men 12 months.....	2300 00
Supplies, oil, waste, etc.....	175 00
Repairs.....	500 00
Total expense for twelve months.....	\$13343 00

The above figures are for 200 H. P. of electrical energy, the amount the city is now developing.

The city can, for \$14000.00, or total cost of approximately \$16975.00, buy 300 H. P. of electrical energy, just fifty per cent more than they are now generating.

Improvements are not considered in the above estimate. The present plant is in very bad shape. The city could not develop any more energy than they are now developing without almost doubling their investment. An appropriation of \$6,000.00 for the improvement or extension of the system is included in the bond issue and it is contemplated that this sum will put the system in first class shape. Therefore it would be unfair to include this in the above statement.

Office expenses are not included, they will be the same as now.

The estimates for salaries, supplies, etc., under the cheap power arrangement are liberal and should fully cover the items mentioned. We feel sure that the present council will make even better arrangements.

The above figures plainly show:

First: The city is now developing 200 H. P. of electrical energy at a total cost of \$19,622.28 per annum. They are offered this amount of electrical energy at a total cost of approximately \$13,343.00.

Second: The City's fuel bill alone at the present time is \$13,179.20 per annum. The city is offered as much power as they are now generating for \$10,368.00 per annum.

Third: The City is now generating 200 H. P. of electrical energy at a total cost of \$19,622.28. They are offered 300 H. P. of electrical energy at a total cost of approximately \$16,975.00.

The City may not need 300 H. P. of electrical energy now. But the contract offered is for twenty to thirty years. How much will it need then?

This paper does not own one dollar's interest in any power company. It is not in the employ of any power company, neither does it receive one penny in any way from a power company for anything that it may advocate. We are working for the best interests of Dothan.

We do not care which company gets the city contract. Give it to the one that offers the best trade is what we want.

It is known that Dothan capitalists have been figuring on organizing a power company and furnishing the city with power. There may be an impression in some minds that action on the power question is being delayed to give these men the preference. This paper does not believe a word of it. We have confidence in our administration. However, the long delay in this matter gives ample cause for this impression to gain ground.

If Dothan capitalists have a proposition to make the city, let them make it. If it is better than any that we now have, take it.

But let's not delay any longer. The city is losing money every day that we wait. We are running the risk of losing other large enterprises.

The figures above make a stronger argument than we can make, look them over. If they do not call for immediate action we do not read them correctly.

The City Council meets in regular session Monday afternoon at five o'clock.

LET THE PEOPLE RULE.
During the present session of our legislature we expect to hear much on the subject of temperance, railroad legislation, taxation, and constitutional provisions, all thought to be by those intrusted with the direction of our public affairs, in the interest of the people. Probably this is so, but let us see.
Life is largely a question of environment and not a matter of law in statutes or constitutions. When the body is not clad it is subject to extremes of heat and cold. When hunger is unsatisfied the appetite soon becomes vitiated. The nervous system through which the mind acts is weak. The same is true in morals. So long as religious or political excitement prevail at certain seasons with a general hand-shaking, we see in turn when the excitement is passed, men pass and repass each other's opinions. While all the there is no law which ideal conditions. But fanatic and the man of moderate habits there is the fanatic nerve. The fanatic nerve while the person with has his seasons of relaxation this government of course wide the gate. Let every man have a part in our conditions. Comemnd that good, condemn that wrong, in the home, on the street, everywhere, will become more liberal and less use for satutory and national legislation; less extra sessions of our law bodies, which consume their and take the honest dollars the same.
